# Welcome to the MRI test recording environment.

## The following steps are necessary to conduct your experiment:

❌ ## 1.) Setup Camera

Press the Setup Camera button after making sure all devices are connected properly. Follow the instructions on the screen.

❌ ## 2.) Open Experiment

Press the Open Experiment button and browse the system for your desired .pdf file containing your experiment slides. This slide will then be replaced by the experiment.

❌ ## 3.) Record

Press the record button after typing in the MRI pulse interval, usually 1.5 or 3.0 seconds.
