openness

Hacker ethic

sharing
openness
collaboration
hands-on-imperative

Nicholas Schiller:

“We’ll see that at least in terms of access to information, public openness, freedom, sharing, and collaboration libraries and hackers are on the same page. There are many things that hackers and libraries can do together that further these shared values and goals.”

Acces to information

Libraries: access to books and digital/online content

Hackers: sharing of projects and related data

Advocacy

Libraries: medialiteracy (privacy, copyright etc.)

Hackers: afiliated with digital rights groups like the EFF etc.

Collaboration

Libraries and FabLabs need the

Community!

Library Hacking

LibraryBox: rendition of PirateBox

Wifi accesspoint giving access to a digital library with copyrightfree content.
