

## Student assistant for administration of media lecture hall

We are looking for a **student assistant** for **10-19 hours** per week to take care of the technology in the recently renovated seminar room 5056. The room is designed for easy integration of modern technologies in teaching.

Your job is to **administrate** the hardware, and create a **dynamic door sign** that shows the current activity based on the information in the CAMPUS system.

### We...

- conduct research on new **user interfaces** for **audio**, **video**, and **ubiquitous computing**

### You...

- have some programming experience
- are not scared of Macs (knowledge of Apple Script is a plus)
- want to work in an awesome team!

### Interested?
