

Diabetes

Designing open self-management tools
for diabetics in a fab lab

A sepia-toned photograph of a Minerva stopwatch. The watch face is visible on the left and right sides, showing numbers 45, 50, 55, and 20. The brand name 'Minerva' is printed on the watch face. A large black diagonal shape covers the center of the image, containing white text.

A hand-drawn social network diagram on a piece of paper. It features several clusters of nodes (represented by dots) connected by lines. The clusters are labeled with names and roles, such as 'McNader/sudbury friends', 'work', 'family', and 'friends'. Some nodes are marked with 'E' for email or 'P' for person. The diagram is drawn in a sketchy, informal style with various annotations and arrows indicating relationships.

A Network of Farmers, Engineers, and Supporters Building the Global Village Construction Set

The Global Village Construction Set (GVCS) is a modular, DIY, low-cost, high-performance platform that allows for the easy fabrication of the 50 different *Industrial Machines* that it takes to build a small, sustainable civilization with modern comforts.

Get involved.

? *Your project is amazing. Thrilling, actually...It's people like you who really give me hope for the future.*

? *Chris Anderson, TED Curator*
