Feedback and Evaluation

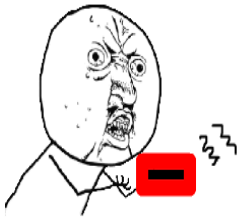
One day I had nothing to do at home.

Why not playing games/facebook?

So I took my phone out.

But there is something wrong....

It changes into red, begins to shake and
makes some light and sounds.



Ooooh, it means my hands are dirty again,
I need to wash them now,
or it could be unhealthy

Done! My hands are clean now!
And my phone becomes normal.

I want to share it with my friends,
and get some bonus points.
